Palaeontology

1964–5

PUBLISHED BY THE
PALAEONTOLOGICAL ASSOCIATION
LONDON

Dates of publication of parts in Volume 7

Part 1, pp. 1–172, pls. 1–29	14 April 1963
Part 2, pp. 173–350, pls. 30–56	21 July 1964
Part 3, pp. 351–524, pls. 57–82	22 September 1964
Part 4, pp. 525–707, pls. 83–108	14 January 1965

THIS VOLUME EDITED BY N. F. HUGHES, W. S. McKERROW, GWYN THOMAS, ISLES STRACHAN, AND M. R. HOUSE

PRINTED IN GREAT BRITAIN

CONTENTS

	Part	Page
Allison, E. C. See Zullo, V. A.		
Amsden, T. W. Brachial structure in the brachiopod family Pentameridae	2	220
Anderson, F. W. The law of ostracod growth	1	85
— See Sohn, I. G.		
Black, M. Cretaceous and Tertiary coccoliths from Atlantic seamounts	2	306
Boellstorff, J. D. See Fagerstrom, J. A.		
Brown, D. A., Campbell, K. S. W., and Roberts, J. A Viséan cephalopod fauna from New South Wales	4	682
Brunton, H. The pedicle sheath of young productacean brachiopods	4	703
Campbell, K. S. W. See Brown, D. A.		
— and Roberts, J. Two species of *Delepinea* from New South Wales	3	514
Chaloner, W. G., and Petitt, J. M. A seed megaspore from the Devonian of Canada	1	29
Cookson, I. C., and Hughes, N. F. Microplankton from the Cambridge Greensand (mid-Cretaceous)	1	37
Cridland, A. A. *Amyelon* in American coal balls	2	186
Delevoryas, T. A probable pteridosperm microsporangiate fructification from the Pennsylvanian of Illinois	1	60
Dineley, D. L. New specimens of *Traquairaspis* from Canada	2	210
Donovan, D. T. See Howarth, M. K.		
Durham, J. W. See Zullo, V. A.		
Elliott, G. F. Tertiary solenoporacean algae and the reproductive structures of the Solenoporaceae	4	695
Fagerstrom, J. A., and Boellstorff, J. D. Taxonomic criteria in the classification of the Pennsylvanian productoid *Juresenia nebrascensis*	1	23
Furnish, W. M., Quinn, J. H., and McCaleb, J. A. The Upper Mississippian ammonoid *Delepinoceras* in North America	2	173
Hibbert, A. F. See Sullivan, H. J.		
Holden, J. C. Upper Cretaceous ostracods from California	3	393
Holland, C. H. On the nautiloid *Leurocycloceras* from the Ludlovian of Wales and the Welsh borders	4	525
Holwill, F. J. W. The coral genus *Metriophyllum* Edwards and Haime	1	108
Howarth, M. K., and Donovan, D. T. Ammonites of the Liassic family Juraphyllitidae in Britain	2	286
Hughes, N. F. See Cookson, I. C.		
Hunter, H. A., and Langston, W. Odontoma in a northern mammoth	4	674
Kaar, R. F. See Zullo, V. A.		
Kaye, P. Revision of the Ostracoda from the Bargate Beds in Surrey	2	317
Krinsley, D., and Schneck, M. The palaeoecology of a transition zone across an upper Cretaceous boundary in New Jersey	2	266
Langston, W. See Hunter, H. A.		
Lewarne, G. C. Starfish traces from the Namurian of County Clare, Ireland	3	508
Logan, A. The dentition of the Durham Permian pelecypod *Permophorus costatus* (Brown)	2	281
Marshall, A. E., and Smith, A. H. V. Assemblages of Miospores from some Upper Carboniferous coals and their associated sediments in the Yorkshire coalfield	4	656
McCaleb, J. A. See Furnish, W. M.		
Pedder, A. E. H. Correlation of the Canadian Middle Devonian Hume and Nahanni Formations by tetracorals	3	430
Pettitt, J. M. See Chaloner, W. G.		
Pocock, K. J. *Estaingia*, a new trilobite genus from the Lower Cambrian of South Australia	3	458
Prasad, K. N. Upper Miocene anthropoids from the Siwalik Beds of Haritalyanger, Himachal Pradesh, India	1	124

CONTENTS

	Part	Page
QUINN, J. H. See FURNISH, W. M.		
RICHARDSON, J. B. Middle Old Red Sandstone spore assemblages from the Orcadian basin, north-east Scotland	4	559
RICKARDS, R. B. Two new genera of Silurian trilobites	4	541
ROBERTS, J. See BROWN, D. A.		
— See also CAMPBELL, K. S. W.		
RUDWICK, M. J. S. The function of zigzag deflexions in the commissures of fossil brachiopods	1	135
SARJEANT, W. A. S. New name and diagnosis for an Upper Jurassic species of *Gonyaulacysta* (Dinophyceae)	3	472
SCHNECK, M. See KRINSLEY, D.		
SCRUTTON, C. T. Periodicity in Devonian coral growth	4	552
SINGH, H. P. A miospore assemblage from the Permian of Iraq	2	240
SMITH, A. H. V. See MARSHALL, A. E.		
SOHN, I. G., and ANDERSON, F. W. The ontogeny of *Theriosynoecum fittoni* (Mantell)	1	72
STANLEY, J. W. The sectioning of steinkerns	1	105
STEVENS, G. R. A new belemnite from the Upper Jurassic of Indonesia	4	621
— The belemnite genera *Dicoelites* Boehm and *Prodicoelites* Stolley	4	606
SULLIVAN, H. J. Miospores from the Drybrook Sandstone and associated measures in the Forest of Dean basin, Gloucestershire	3	351
— and HIBBERT, A. F. *Tetrapterites visensis*—a new spore-bearing structure from the Lower Carboniferous	1	64
SUTTON, I. D. The tabulate coral genus *Cystihalysites* from Wenlock and Dudley	3	452
WATERHOUSE, J. R. Palaeotaxodont bivalves from the Permian of New Zealand	4	630
WEBBY, B. D. Devonian corals and brachiopods from the Brendon Hills, West Somerset	1	1
WILLS, L. J. The ventral anatomy of the Upper Carboniferous eurypterid *Anthraconenctes* Meek and Worthen	3	474
WOOD, A. A new dasycladacean alga, *Nanopora*, from the Lower Carboniferous of England and Kazakhstan	2	181
ZULLO, V. A., KAAR, R. F., DURHAM, J. W., and ALLISON, E. C. The echinoid genus *Salenia* in the eastern Pacific	2	331
